Dear Hunt,

Thanks for your thoughtful note. I am delighted that you have accepted [redacted] I do think he will do a good job for you, and I am pleased that this connection between the College and the Agency will be made once again.

I know you will be sorry to leave Newport and the stimulating intellectual atmosphere, but we are all grateful for what you have done, both with Julien and on your own, to carry the program forward and improve it.

Best of luck as you move on.

Yours,
